

GROUP CBS

Providing Electrical Solutions Worldwide

Since 1981

HARNESS THE POWER OF GROUP CBS

GROUP CBS: EMPOWERING

FIELD SERVICE

When an emergency strikes, our dedicated engineers and technicians — along with our unparalleled inventory of all manufacturers' obsolete, surplus, and new electrical equipment and replacement parts — enable us to restore your power quickly and safely, 24/7.

LIFE EXTENSION

We can extend the life of your obsolete, hard-to-maintain switchgear, motor controls, and circuit breakers by raising interrupting capacity, increasing equipment reliability, matching your existing switchgear lineup, providing solid-state trip units, and offering retrofit and re-fill solutions.

PARTS

Our stock includes a wide variety of new, surplus, and reconditioned industrial molded-case circuit breakers and insulated-case breakers rated up to 5000 amperes from virtually all manufacturers, including ABB, Cutler-Hammer, FPE, General Electric, ITE, Siemens, Square D, Westinghouse, and Zinsco.

POWER EQUIPMENT

Contact us for ready access to virtually any low- or medium-voltage electrical power apparatus ranging from a single replacement part to a complete substation. Our vast inventory includes new, surplus and reconditioned circuit breakers, switchgear, transformers, motor control, load break switches, protective relays, replacement parts, and much more.

THE ELECTRICAL INDUSTRY

REMOTE RACKING & SWITCHING

To provide enhanced arc-flash protection for your personnel, we offer circuit breaker remote racking systems and remote switch operators, reducing the need for full-body arc-flash hazard suits by taking technicians outside the arc-flash boundary.

SHOP REPAIRS

Our trained technical and engineering staff is on hand to test and inspect your electrical equipment and then professionally repair, remanufacture, or recondition it to original equipment manufacturer and industry standards. We follow up with full documentation of test results and equipment performance.

TESTING

We go well beyond the pass/fail HiPot test for your vacuum interrupters. Our technicians can predict the remaining life of your vacuum interrupters through Magnetron Atmospheric Condition (MAC) field and shop testing.

CUSTOM-ENGINEERED PRODUCTS

With our experienced in-house engineering, metal working capabilities, and skilled technicians, we can custom design and build or modify an existing panelboard or switchboard to fit your lighting or power distribution application.

GROUP CBS AFFILIATES

Group CBS GroupCBS.com

Headquarters for affiliated electrical equipment, service, and engineering companies throughout the US, UK, Middle East, and Pacific Rim, providing premier products and services to the industrial, utility, electrical distribution, and repair markets worldwide.

Addison, TX — Ph: 972-250-2500

Group CBS UK/Europe GroupCBSEurope.co.uk

Group CBS Europe sells the products of CBS ArcSafe and Vacuum Interrupters.

Milton Keynes, Buckinghamshire — Ph: +44 0 7770 500 577

Advanced Electrical & Motor Controls AEAMC.com

Certified UL 508A industrial control panel builder specializing in the sales and service of insulated-case circuit breakers, molded-case circuit breakers, bolted pressure switches, panelboards, switchboards, motor controls, bus plugs, bus ducts, and renewal and replacement parts.

Irving, TX — Ph: 972-253-7783

Arkansas Electrical Outlet AEOglobal.com

Arkansas Electrical Outlet specializes in new and remanufactured electrical power distribution equipment and custom-built systems for a wide variety of industries and clients. Products include motor control centers, motor starters, MCC buckets, panelboards, switchboards, control panels, pump panels, circuit breakers, bus plugs, industrial grade switches and disconnects, control and power transformers, and variable frequency drives and motors.

Forrest City, AR — Ph: 870-633-4997

CBS Nuclear Services CBSNuclear.com

In-shop and on-site field servicer of Class 1E safety-related low- and medium-voltage switchgear and circuit breakers. Also services industrial and non-nuclear-related circuit breakers and related switchgear and substations.

Matthews, NC — Ph: 704-882-1875

Carolina Precision Switchgear CPSwitchgear.com

Carolina Precision Switchgear specializes in refurbishing low- and medium-voltage circuit breakers, restoring equipment in shop or on site.

Concord, NC — Ph: 704-596-4242

Solid State Exchange & Repair SolidStateRepair.com

SSER repairs and calibrates electronic circuit breaker trip units for hundreds of customers, including many of the major circuit breaker manufacturers. Services include repairs of solid state trip units for circuit breakers, multifunction relays, secondary test sets, power supplies, and ground fault relays.

Denton, TX — Ph: 877-TRIP-FIX

Circuit Breaker Sales CircuitBreaker.com

World's largest inventory of low- and medium-voltage circuit breakers and parts. Complete service, remanufacture, upgrade, and life-extension services. Also offers CBS MagVac magnetic latching medium-voltage breakers and Tough Duty® Power/Vac® roll-in replacement breakers.

HEADQUARTERS Gainesville, TX — Ph: 940-665-4444

REGIONAL SERVICE SHOPS

Boston — Ph: 800-521-0197

Chicago — Ph: 847-697-8720

Crown Point, IN — Ph: 219-213-2095

Vancouver — Ph: 888-395-2021

Western PA — Ph: 800-521-0197

CBS ArcSafe CBSArcSafe.com

The arc-flash protection experts, offering remote racking systems, remote switch actuators, and handheld motorized racking tools for low- and medium-voltage switchgear.

Denton, TX — Ph: 940-382-4411

Circuit Breaker Analyzer CBAnalyzer.com

Producer of new circuit breaker testing methods that use vibration analysis combined with internet data transfer and sophisticated condition-based analysis to determine the condition of all types of circuit breakers.

Addison, TX — Ph: 972-290-0074

Vacuum Interrupters VacuumInterrupters.com VacuumInterrupterTesting.com

Your source for replacement vacuum interrupters, MAC-TSx® series of vacuum interrupter test units, CBT-1201® timers, and replacement encapsulated poles for Power/Vac® circuit breakers.

Farmers Branch, TX — Ph: 214-442-5877

CBS Field Services CBSFieldServices.com

Specializing in providing electrical testing and maintenance services for electrical switchgear and power distribution equipment performed per ANSI and NETA standards, CBS Field Services' technicians and engineers provide independent third-party testing and analysis and are available 24/7 to ensure the reliability and safety of your power distribution system.
